About Me

As a **Senior Front-End Architect & Full-Stack Developer with 20+ years of experience**, I deliver high-performance applications within the React and React Native ecosystems by bridging two decades of foundational engineering with modern, AI-augmented workflows. My focus on rigorous architectural standards ensures scalable, production-ready codebases and seamless end-to-end deployment via Expo EAS and similar systems.

With passion for my work, I'm staying up to date with current development trends and new tools of the trade. I love building things!
